GAMEPLAY

20. Each match will begin with a coin toss. Home team calls heads or tails. (Home team is listed first on the game schedule.)
21. The winner of the coin toss will choose to either kick off or declare which goal they will attack in the first half; the loser will then have the remaining option. The reverse will occur to start the second half automatically.
22. The soccer ball size is size 3
23. The game will consist of four, 6-minute quarters with a 3-minute halftime and 2-minutes between quarters. (or two 10-minute halves)
24. Absolutely no slide tackling.
25. Players must kick-in the ball after any out-of-bounds play over touch line/sideline.
26. Substitutions may only be made with the referee's acknowledgment.
27. Substitutions will be allowed during the following breaks in play for either team:
 - Kickoffs, including after a goal has been scored
 - Kick-in, rather than Throw-in
 - Goal kick
 - Corner kick
 - Injury
28. **BENEFIT OF THE DOUBT**- the referee will interpret if a child is attempting to do a skill properly and may choose not to make a call based on "advantage".
29. **ADVANTAGE CLAUSE** - The Referee, in their judgement, may choose to allow a play to continue after a rule infraction, if it would result in an "advantage" to the fouling team to stop play. The theory is that the team that was fouled should not be punished by having an attack stopped which might result in a goal or more succinctly, that the team which committed the foul should not gain an advantage because of the foul.
30. **NO FORFEITS.**

CONCUSSION RECOGNITION - SIGNS AND SYMPTOMS

Concussions are a serious injury. One misconception is that concussions are a football or contact sport related injury. Concussions can occur in any sport or recreational activity.

A concussion is a type of traumatic brain injury caused by a bump, blow, or jolt to the head that can change the way the brain normally works. Concussions can also occur from a blow to the body that causes the head to move rapidly back and forth. Even a “ding,” “getting your bell rung,” or what seems to be mild bump or blow to the head can be serious.

Signs Observed by Coaching Staff

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Cannot recall events prior to hit or fall
- Cannot recall events after hit or fall

Symptoms Reported by Athlete

- Headache or “pressure” in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Confusion
- Does not “feel right” or is “feeling down”

You cannot see a concussion and some athletes may not experience and/or report symptoms until hours or days after the injury. Most people with a concussion will recover quickly and fully. But for some people, signs and symptoms of concussion can last for days, weeks, or longer.

SPORTSMANSHIP/CODE OF CONDUCT

- Shouting of negative comments by any coach or spectator to any opposing player, official, staff member or to the opponent’s sideline is strictly prohibited. Any violation will result in a sideline infraction.
- If any person not included in the team roster (coach or player) enters the field/court of play. The referees and/or site supervisor have the discretion to end the game immediately.
